Event Description

The Virginia Board for People with Disabilities is holding online meetings over the next month to gather public input, and our first meeting is just a few days away. Your input will be used by the Board to develop its next five-year state plan. This plan will direct ALL of the Board's activities and play an enormous role in how the Board prioritizes its funding for grants and other programs to improve disability services around Virginia. These meetings are free, online, and open to the public! A computer, internet-ready device, or phone will be required to participate. An ASL interpreter and closed captioning will be available. For other accommodations and more information, please email info@vbpd.virginia.gov. Please come prepared to discuss the issues that matter most to you! Thursday, June 11 6 pm
