Generations Crossings provides adult day services that are held in a professional care setting in which older adults, adults living with dementia, or adults living with disabilities receive supervision, socialization, and support from the professional staff. The adults that participate in adult day care also experience intergenerational interactions with our child care program, as well as planned activities such as arts and crafts.

Generations Crossings is a multigenerational daycare center with a vision for separate adult and child centers under one roof. The program provides a safe, supervised, stimulating environment for adults who require assistance with activities of daily living and supervision. Capacity is 30.

Services include nursing care, ongoing health monitoring, a daily calendar of activities, nutritious snacks, a hot noon meal, medication management, and support to families and caregivers. Center staff can assist with coordinating transportation to and from the center.

Service Area(s)

Rockingham County
