Inova Loudoun Hospital operates an Emergency Care Center which is staffed 24-hours/7 days a week.

The Cornwall facility is a stand alone facility that can provide medical evaluations and treatment by specially trained physicians who are board certified in Emergency Medicine 24 hours a day, seven days a week. We treat all patients regardless of race, religion, sex, national origin, nationality or ability to pay. You cannot be refused treatment for any reason.

From the Cornwall campus, should you need to be admitted or have surgery, an ambulance, stationed at the site 24 hours a day 7 days a week will transport you to the Lansdowne campus. The Lansdowne site is equipped with four operating suites and inpatient hospital services for your continued care. Doctors and nurses from Cornwall will communicate your symptoms, diagnosis and treatment needs to the staff at Lansdowne who will prepare for your arrival. This will assure a smooth transition between campuses.

A list of bilingual hospital staff is maintained in the Emergency Room.
