New Vision is an inpatient medical stabilization service for adults with drug, alcohol and related health issues. The service accepts appropriate adults, who are currently using or are experiencing acute withdrawal symptoms from certain drugs. It consists of a medically supervised hospital stay for inpatient stabilization that typically lasts 3 days. The inpatient stay includes the following aspects:

- Pre-Screening
- Assessment
- Admission
- Medical Stabilization
- Appropriate Discharge Planning

Patients who are under the influence of chemical substances, and are considered medically unstable, will be closely observed and stabilized.
