The Career Center offers resources such as self-assessment tools, research tools, and information and sessions.

- Research Tools include self-assessments, internships, volunteer work, elective coursework, and career shadowing. There are also available a number of online resources.
- Information and Sessions provide information on job entry skills, including completing applications, writing cover letters, resumes, and thank-you notes, and being successful at interviews.
- Self-Assessment Tools for enrolled students help to provide in-depth career assessments by completing individualized interest and personality assessments and follow-up interviews and interpretation, e.g., The Myers-Briggs Type Indicator and the Strong Interest Inventory.
