Maple Grove Medical (Maple Grove) provides mental health and wellness services to individuals in environments that are comfortable and familiar, typically in their

homes. Maple Grove can also provide care to individuals in Assisted Living Facilities. Some of the conditions Maple Grove can help with include:

- Depression and Anxiety
- Grief and Loss
- Adjustment challenges
- Behavioral problems associated with forms of dementia
- Bipolar Disorder
- Post traumatic stress disorder
- Anger management
- Stress
- Self esteem concerns
- Interpersonal and communication concerns
- Sadness or anger associated with life stressors
- Living with chronic pain (no narcotics prescribed)

Maple Grove Medical also provides medication/disease management.
