Money Management International is a national nonprofit organization dedicated to helping consumers identify and resolve their financial problems. It is our mission to provide unbiased advice and support as our clients make financial decisions for a more stable future.

Our certified professional counselors understand the needs of our clients and the requirements of creditors. Counselors evaluate the client's financial situation and utilize available income to structure a debt repayment program within the client's capabilities. A budget is devised to meet living expenses and bill payments. Clients are directed toward financial responsibility and control of their finances. Our agency will set up a repayment plan for the orderly payment of existing debt with the cooperation of creditors. Clients agree not to incur further debt while on the plan.
