United States

REBOOT's program model includes a 12 week course that serves the entire family. The faith based trauma healing course is peer led. Many locations will provide a meal and childcare. After completing our trauma healing course, graduates advance to focus on rebuilding strong character, engaging in a healthy community and reclaiming leadership roles. REBOOT upholds the “teach a man to fish” ideal and equips our members to move past REBOOT and live an abundant life. In other words, we know we’ve been successful when our graduates don’t need us anymore.
