Colonial Behavioral Health offers numerous services to individuals (adults and children) with developmental disabilities to help them thrive in their communities.

The Employee Assistance and Day Services programs provide personal, social, and behavioral skills training for individuals with developmental disabilities in order to help them improve the quality of their daily lives. Through skills assessment and person-centered planning, these programs strive to facilitate self-empowerment, community integration, and independent living.

When possible, accessible transportation is provided to make it easier to participate.
