Beacon House is an ABI Clubhouse, a program for people living with the effects of an acquired brain injury. Living with a brain injury can be lonely. It helps to know you are not alone – whether you are an individual living with a brain injury or a family caregiver. A support group may help a survivor or caregiver.

A brain injury can result from any number of different accidents or traumas. The one thing all individuals suffering from TBI need is support. Eggleston offers two groups, one for survivors and one for caregivers, family, and friends.

The groups run simultaneously and are held on the third Thursday of every month at 6 pm at Beacon House: 5145 East Virginia Beach Blvd, Norfolk, VA 23502
