

Rehabilitation

Rehabilitation programs can help Veterans with service-related disabilities prepare for, secure, and maintain employment. Other rehabilitation programs may help Veterans recover from surgery, illness, or injury, or provide therapeutic services for brain or spinal cord injuries.

Traumatic Brain Injury and PTSD

Traumatic brain injury (TBI) occurs from a sudden blow or jolt to the head. Brain injury often occurs during some type of trauma, such as an accident, blast, or a fall. A TBI is the injury, not the symptoms.

[Understanding Traumatic Brain Injury](#)

Traumatic Brain Injury (TBI) may happen from a blow or jolt to the head or an object penetrating the brain. When the brain is injured, the person can experience a change in consciousness that can range from becoming disoriented and confused to slipping into a coma.
